Subject:	Funding the Delta Independent Science Board

Dear Delta Stewardship Council Members:

Due to the state's budget surplus, the Delta Stewardship Council has an increase of $875,000 in your general fund funding for FY 2021-22; however, it is unclear how much you will use to restore funding for the critically needed work of the Delta Independent Science Board.

In the interest of saving the extremely endangered fish and wildlife of the Sacramento-San Joaquin River Delta, I strongly urge you to fully restore funding for the Delta Independent Science Board.

Respectfully,

Trygve Sletteland
