Purpose

On March 28, 2023, the Delta Independent Science Board (Delta ISB) will tour Rindge Tract with Tom Zuckerman to learn about how crops more typical of the Delta lowlands are farmed and how traditional methods of irrigation and drainage are employed. In addition, the Delta ISB will receive an overview of an upcoming project by Pelican Renewables LLC, which will construct a deep injection well and related infrastructure on Rindge Tract for geologic sequestration of carbon dioxide.

To help with planning, please email disb@deltacouncil.ca.gov by March 26 if you plan to attend the tour. **For health and safety, all attendees must wear close-toed shoes and long pants.** Masks and physical distancing are strongly recommended.

All members of the public participating in the tour are responsible for their transportation to and from the tour, as well as their food and water. There will be no refreshments or water provided at any time during the tour. All times listed in the agenda are approximate.

This Purpose section describes the highlights. For more information about the meeting, refer to the agenda below.
