## Mark Your Calendars

Approximately \$6 million is available for awards! All proposals must directly address one or more science actions identified in the **2022-2026 Science Action Agenda** and must demonstrate a strong connection with natural resource management and/or **community** groups.

There are separate award categories for large projects (\$200,001 to \$1,500,000) and small projects (\$90,000 to \$200,000).

## Learn More

This solicitation calls for research projects across multiple disciplines, but proposals with a substantial **social science** component will be eligible for additional points during the review process, in recognition of previous underfunding of Science Action Agenda actions related to the **human dimensions** of the Delta.
