Updated April 20, 2020

The tables below highlight a sample of active projects for Council member review. Active projects include both potential covered actions and related plans and projects. An explanation of Column 4, Status, is provided on page 6.

Changes since March are highlighted and denoted with an asterisk (*). One project was removed from the list: Three Creeks Parkway Restoration #2.

State Projects

| Name | Location (County) | Proponent | Status | California Environmental Quality Act (CEQA) Status | Description |
|---|----------------------|--|---|--|---|
| Delta Conveyance | Delta-wide | Department of Water Resources (DWR) | Early Consultation; Submitted Comment Letter on April 17, 2020* | Notice of Preparation (NOP) | A facility to convey water from the Sacramento River in the north Delta directly to the existing State Water Project and Central Valley Project pumping plants in the south Delta |
| Prospect Island Restoration Project (EcoRestore) | Solano | DWR | Early Consultation | Notice of Determination (NOD)* | Large-scale tidal marsh restoration project in Cache Slough |
| Reinitiation of Consultation on the Coordinated Long- Term Operation of the State Water Project (SWP) | Statewide | DWR | Monitoring* | NOD; Incidental Take Permit (ITP)* | Supports the ITP application for SWP operations and provides California Endangered Species Act (CESA) authorization for the SWP regardless of any changes to federal law during the term of the ITP |
| SWP Water Management Tools/Contract Amendments | Statewide | DWR | Comment Letter in progress, due May 13, 2020* | Partially Recirculated Draft EIR | Ongoing negotiations of terms outlined in the Agreement in Principle that will be used as a project description for an EIR |

| Name | Location (County) | Proponent | Status | California Environmental Quality Act (CEQA) Status | Description |
|---|----------------------|--------------------------------|---|--|--|
| Lookout Slough Restoration Project (EcoRestore) | Solano | DWR | Comment Letter | Draft EIR | Large-scale tidal marsh restoration project in Cache Slough |
| Lower Yolo Restoration Project (EcoRestore) | Solano | Westlands Water District | Filed Certification on April 7, 2020* | Addendum to Final EIR | Large-scale tidal marsh restoration project in Cache Slough |
| Whale Belly Wetland Restoration (EcoRestore) | Sacramento | DWR | Filed Certification on April 7, 2020* | IS/MND | Large-scale wetland, upland, and riparian forest restoration project on Sherman Island |
| Wings Landing Tidal Habitat Restoration (EcoRestore)* | Solano* | DWR* | Early consultation pending; Anticipating Certification* | Addendum to 2011 Final EIS/EIR* | Large-scale tidal and subtidal marsh restoration project in Suisun Marsh* |

Regional Projects

| Name | Location (County) | Proponent | Status | CEQA Status | Description |
|---|-----------------------------|---|---|---|--|
| Valley Link Rail Project | San Joaquin | Tri Valley Regional Rail Authority | Early Consultation | NOP; responded to comments on feasibility study | Proposed railway that would link Tracy and Stockton to existing Bay Area transit systems (Bay Area Rapid Transit [BART] and Altamont Corridor Express [ACE]) |
| Plan Bay Area 2050 | Contra Costa, Solano | Metropolitan Transportation Commission (MTC) | Early Consultation | Not Initiated | Update to the Regional Transportation Plan/Sustainable Communities Strategy (RTP/SCS) which projects regional growth patterns and prioritizes transportation investments |
| Eastern San Joaquin Groundwater Sustainability Plan (GSP) | San Joaquin | Eastern San Joaquin Groundwater Sustainability Agency (GSA) | Comment Letter in progress, due May 15, 2020* | Not applicable | Strategies and potential projects to enable the groundwater basin to reach long term sustainability by 2040. |
| Valley Rail Sacramento Extension Project* | San Joaquin, Sacramento* | San Joaquin Regional Rail Authority* | Comment Letter in progress, due May 15, 2020* | Draft EIR* | Proposed rail service between Stockton and Natomas using existing Union Pacific Railroad right-of-way* |

Local Projects

| Name | Location (County) | Proponent | Status | CEQA Status | Description |
|---|-------------------|-------------------|--|---|---|
| Amendment to the Solano County component of the Suisun Marsh Local Protection Program | Solano | Solano County | Anticipating Certification | Initial Study/Negative Declaration (IS/ND) | Amendment to the Solano County component of the Suisun Marsh Local Protection Program, certified by the Bay Conservation and Development Commission (BCDC) and adopted by the County |
| Antioch Brackish Water Desalination Project | Contra Costa | City of Antioch | Early Consultation; Anticipating Certification* | Notice of Determination (NOD) | New 6 million gallons per day desalination facilities and associated infrastructure, including a new brine disposal pipeline and replacement of a San Joaquin River intake pump station |
| Lathrop Consolidated Treatment Facility Surface Water Discharge Project | San Joaquin | City of Lathrop | Comment Letter | NOP | Project to repurpose existing recycled water pipeline or construct new effluent pipeline, and install a new outfall to discharge effluent to the San Joaquin River |
| Yolo County Cannabis Land Use Ordinance | Yolo | Yolo County | Comment Letter | Draft EIR | Project to regulate cannabis activities through land use, zoning, and development standards, and related General Plan amendments |
| Burning Waters RV Park and Marina (21 Pierce Lane)* | Solano* | Solano County* | Comment Letter submitted April 1, 2020* | Application Referral* | Permit application for a recreational vehicle park and marina in the Suisun Marsh* |

Other Projects

| Name | Location (County) | Proponent | Status | CEQA Status | Description |
|---|---|--|-------------------------------|---|--|
| Long-Term Water Transfers | Contra Costa, Sacramento, San Joaquin, Solano, Yolo | San Louis & Delta- Mendota Water Authority | Monitoring* | NOD/Record of Decision (ROD)* | Project to make water transfers more implementable in order to serve existing demands |
| Los Vaqueros Reservoir Second Expansion | Contra Costa | Contra Costa Water District | Early Consultation | Final Supplement to the Final EIR/EIS | Expansion of Los Vaqueros Reservoir, and construction of new and replacement water supply infrastructure |
| Reinitiation of Consultation on the Coordinated Long-Term Operation of the Central Valley Project (CVP) and SWP | Statewide | United States Bureau of Reclamation (Reclamation) | Monitoring | Final EIS | Modifications to continued long-term operation of the CVP, in coordination with the SWP, to maximize water supply deliveries, optimize marketable power generation, and address the status of federally-listed species |
| Yolo Bypass Salmonid Habitat Restoration and Fish Passage (EcoRestore) | Yolo | Reclamation and DWR | Anticipating Certification | ROD/ Draft EIR | Alterations to the weir located north of the legal Delta would change the extent and timing of Yolo Bypass flooding within the Delta |
| Mossdale Tract Area Urban Flood Risk Reduction Study | San Joaquin | San Joaquin Area Flood Control Agency | Early Consultation | Not Initiated | Identify a plan to achieve an urban level of flood protection for the Mossdale Tract (Reclamation District No. 17) |

Status Types

Active projects include both potential covered actions and related plans and projects of interest. The active project "Status" reported above is not sequential, but tends to align with certain phases of the CEQA process. The relationship between generalized steps in the CEQA process (top row) and generalized status types (bottom row) is illustrated in **Figure 1**. Each status type is described in more detail, below.

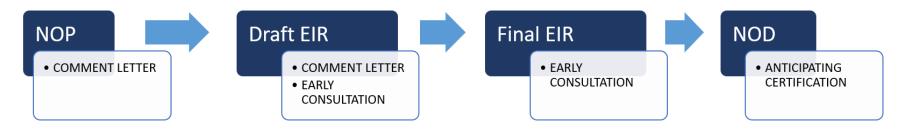

Figure 1. Typical Project Sequence

Coordinating: Occasionally, the Council will coordinate with state and local agencies prior to the initiation of the CEQA process in order to track and/or inform project formulation. Coordination may include informal discussions or attendance at project planning meetings.

Comment letter: Council staff prepare comment letters in response to each phase of the CEQA process leading up to a final document (e.g., Notice of Preparation [NOP], IS/ND, IS/MND, DEIR). The Council may also comment on other interim studies and reports, as needed. The Council comments on potential covered actions as well as on long range plans identified in the Delta Reform Act (Water Code §85212) and projects located outside of the Delta that will have a significant impact on the Delta (Water Code §85210[j]).

Early consultation: The Delta Reform Act directs the Council to offer early consultation to assist state and local public agencies in preparing certifications of consistency (Water Code §85225.5). The timing and frequency of early consultation is at the discretion of the project proponent.

Anticipating certification: Council staff anticipate a certification of consistency once a notice of determination (NOD) has been issued. Proponents of covered actions must file a certification of consistency prior to project implementation (Water Code §85225). The timeframe between NOD and implementation varies.
