

## **ACTION ITEM**

Consideration and Possible Adoption of Contract Amendment with AECOM to  
Extend the Performance Period to the Master Contract

### Summary

This item is a request for approval to amend the existing AECOM contract DSC8932 to extend the contract term by six months for support in preparing the Council's Delta Adapts Climate Adaptation Plan. The contract extension is required for the completion of the Adaptation Plan related to (1) additional support on the Adaptation Plan; (2) outreach to socially vulnerable communities, or those that have the greatest sensitivity and lowest adaptive capacity to climate hazards, and environmental justice communities; and (3) additional coordination time with the Council project team.

### Requested Action

Approve Resolution 2023-05 to authorize the Executive Officer, or their delegee, to amend existing contract DSC8932 with AECOM to extend the contract term date from June 30, 2024, to December 31, 2024, to provide additional support on the Adaptation Plan, outreach to socially vulnerable communities, and for additional coordination time with the Council project team.

### Background

Phase 2 of Delta Adapts, which includes the Adaptation Plan, has been in process since November 2021. Since then, Council staff has met with a diverse group of numerous stakeholders in the Delta and Suisun Marsh. As the outreach process develops, there is increasing interest and need for additional engagement, especially with socially vulnerable communities. If the amendment is approved, AECOM would assist the Council in performing additional outreach, including to socially vulnerable communities, as well as provide additional support in the preparation of the Adaptation Plan, and coordination with the Council project team. This would be the fourth time extension since the original term end date of April 30,

2021. The other previously approved term extensions were June 30, 2022; June 30, 2023; and June 30, 2024. These additional tasks require an extension of the contract period by six months to December 31, 2024.
