

Association of California Water Agencies

Leadership Advocacy Information *Since 1910*

May 12, 2010

Dear: Chair, Phil Isenberg

Congratulations on your appointment to the Delta Stewardship Council. As you know, ACWA is a strong supporter of the comprehensive water legislative package. We are pleased to see the Council up and running. Of course, your work will be critical to a productive future path for the Delta.

As you may know, ACWA represents nearly 450 public water agencies around the state, making us the largest coalition of public water agencies in the nation. The information provided in this packet will familiarize you with our association and with our policy positions. Please note our landmark document, "No Time to Waste" which defines our broad policy statement and the individual policy principles that we have developed over the past two years to speak to the specifics on key issues.

Also provided is our magazine Water for Tomorrow which is produced in partnership with National Geographic custom publishing and a copy of the April 2010 issue of National Geographic's issue on water. Note the tabs for the ACWA ad and Save Our Water consumer guide. You will also find information on the Save Our Water program in partnership with the California Department of Water Resources and background.

Please look to ACWA as a resource on water. We would be happy to help you in any way that we can.

Good luck as we all move forward towards meeting the co-equal goals.

Sincerely,

Tim Quinn
Executive Director
