- **Delta Residents' Survey**
- **Modeling Summit**

An aerial photograph showing a winding river with several meanders. The river is a deep blue color. To the right of the river, there is a large, rectangular field filled with rows of young, light-colored trees, possibly a reforestation project. The surrounding landscape is a mix of green grass and brownish-yellow fields. In the far background, a residential area with many houses is visible under a clear sky.
