

**Figure 4-7. Priority Habitat Restoration Areas**

Note: The Priority Habitat Restoration Areas are the same as those depicted in Appendix 5.

## **Figure 4-7. Priority Habitat Restoration Areas (contd.)**

Figure 4-7 is a map that delineates Priority Habitat Restoration Areas (PHRA) within the Delta.

Suisun Marsh PHRA is located at the western edge of the Delta, south of Fairfield and Suisun City, and east of Benicia. It encompasses nearly the same area as the Suisun Marsh boundary, except that the PHRA does not extend west beyond Highway 680, nor into the developed portion of Suisun City. The Yolo Bypass PHRA is located in southern Yolo County and eastern Solano County, adjacent to Cache Slough, which is located entirely within eastern Solano County (north of Rio Vista). The Yolo Bypass PHRA encompasses the same area as the Yolo Bypass, and extends north beyond the boundary of the Delta to Fremont Weir. The Cache Slough PHRA extends from the boundary of the Delta on the south and west to Yolo Bypass on the east. The Cosumnes/Mokelumne PHRA is located at the western edge of Highway 5 between Elk Grove and Lodi. The Western Delta PHRA consists of three separate areas: Decker Island, Winter Island, and Dutch Slough. The Lower San Joaquin River Floodplain PHRA is located south of Highway 4 between Interstate 5 and 205, including the southwestern portions of Stockton and western side of Lathrop.

The PHRAs shown on this map are also the same as the PHRAs shown in Appendix 5, the regulatory appendix for Policy ER P3.

Alternative formats of this map are available upon request.
