SUBSIDENCE WORKSHOP

Managing subsided lands in the Sacramento-San Joaquin Delta

October 19-20, 2023
9:00 AM to 4:30 PM

The Westin
4800 Riverside Boulevard
Sacramento, CA 95822

Event Details:

The Delta Independent Science Board is hosting this two-day hybrid workshop as part of its **subsidence review**.

The workshop will consist of presentations from local science experts and panel discussions to understand management practices, evaluate the state of science, and provide recommendations to fill knowledge gaps. The panels will be organized by theme: land stabilization practices and experiments, biogeochemistry of greenhouse gas emissions and net carbon sequestration among inundation practices, incentives to integrate inundation for agricultural operations, and evaluating landscape-scale implications of managing subsided lands.

Register to attend in person or virtually.
