GOVERNOR NEWSOM REAPPOINTS COUNCIL SPECIAL ASSISTANT FOR PLANNING AND SCIENCE

SACRAMENTO – Amanda Bohl, of Sacramento, has been reappointed Special Assistant for Planning and Science at the Delta Stewardship Council, where she has served since 2018.

“It’s with great pleasure to confirm Amanda’s reappointment,” says Chief Deputy Executive Officer Ryan Stanbra. “Amanda’s unique skillset and proactive approach to coordinating agency and interagency efforts that advance the coequal goals of a reliable California water supply and resilient Sacramento-San Joaquin Delta ecosystem qualify her as the ideal steward of the Delta Plan Interagency Implementation Committee (DPIIC).”

Prior to joining the Council, Amanda was Manager of Meeting Services and Special Projects at the Delta Stewardship Council from 2016 to 2018. Amanda was Economic Development Lead at the Sacramento-San Joaquin Delta Conservancy from 2012 to 2015, Program Director at the American Land Conservancy from 2006 to 2008 and a Program Analyst at the Resources Law Group from 2004 to 2006. Amanda was an Independent Consultant from 2000 to 2004, Project Director at the Amador-Tuolumne Community Action Agency from 2001 to 2003, Project Coordinator at the American Lung Association from 1999 to 2001 and an Associate Consultant in the Office of Assemblymember Diane Martinez from 1997 to 1999.

“I look forward to continuing my work at the Council and to working collaboratively with our DPIIC partner agencies to find common ground and take collective action on strengthening the Delta science enterprise in support of informed decision-making in the face of rapid environmental change,” says Amanda.

ABOUT THE COUNCIL

Created by the California Legislature in 2009, the Delta Stewardship Council is composed of members who represent different parts of the state and offer diverse expertise in fields such as environmental issues, science, and public service. Of the seven, four are appointed by the Governor, one each by the Senate and Assembly, and the seventh is the chair of the Delta Protection Commission. For more information, visit the [Council's website](http://deltacouncil.ca.gov) (deltacouncil.ca.gov).

ABOUT THE DPIIC

The DPIIC strives to facilitate Delta Plan implementation through collaboration in support of shared national, statewide and local goals for the Delta. The Council aims to craft agendas that highlight the interconnections of the Delta Plan with initiatives, plans, or programs of DPIIC agencies. It explores opportunities to align agencies' actions in the Delta watershed, showcases DPIIC agencies' achievements, and guides actions to address pressing issues affecting Delta Plan implementation. These agencies are vital to making progress on achieving the coequal goals through four key elements: water supply reliability, Delta ecosystem health and restoration, Delta as a Place, and best available science in support of "One Delta, One Science." For more information, visit the [DPIIC web page](http://deltacouncil.ca.gov/dpiic/) (deltacouncil.ca.gov/dpiic/).
