FEATURED CONTENT

- Live-tweets from the Council Meeting and the Delta Science Program-hosted Estuarine Connectivity Symposium at UC Davis
- Chair’s blog on reducing reliance on the Delta, International Day of Women in Science, Engineers Week (EWeek), Introduce A Girl to Engineering Day, Council and California Sea Grant social scientist recruitment, chair’s blog on ecosystem-based management, draft Public Participation Plan
- Science Friday: King tides, estuarine connectivity, juvenile salmon, and fish predation

TAKE HOME MESSAGE

Delta science, job vacancies, and staff features tied to popular culture events like International Women in Science Day and EWeek earned high engagement this month, reinforcing the value of sharing timely, relevant science, agency opportunities, and staff features. Original GIFs with Delta landscapes continue to be scroll-stopping content that resonates with followers. Twitter’s “pin” feature continues to allow us to highlight priority content at the top of our profile, like the top tweet below.

TAKE HOME MESSAGE

An underwater river photo of a salmon for Science Friday reached 567 users and resulted in 6 profile visits. In response to a growing interest in science-based content, we are working on adding a “link repository” feature to our Instagram profile that will make our most recent links available to viewers for a longer period of time.
