

Delta Stewardship Council Active Projects List

June 2, 2022

The tables below highlight a sample of active projects for Council member review. Active projects include both potential covered actions and related plans and projects. An explanation of Column 4, Status, is provided on page 6.

Changes since May are highlighted and denoted with an asterisk (*). No projects were removed this month.

State Projects

Name	Location (County)	Proponent	Status	California Environmental Quality Act (CEQA) Status	Description
Delta Conveyance	Delta-wide	Department of Water Resources (DWR)	Early Consultation	Notice of Preparation (NOP)	A facility to convey water from the Sacramento River in the north Delta directly to the existing State Water Project (SWP) and Central Valley Project (CVP) pumping plants in the south Delta
Prospect Island Restoration Project (EcoRestore)	Solano	DWR	Early Consultation	Notice of Determination (NOD)	Large-scale tidal marsh restoration project in Cache Slough
Lookout Slough Restoration Project (EcoRestore)	Solano	DWR	Appeals denied (Resolution 2022-03)	NOD	Large-scale tidal marsh restoration project in Cache Slough
Franks Tract Futures 2020 Reimagined	Contra Costa	California Department of Fish and Wildlife (CDFW)	Comment Letter	Not Initiated	Explore options for improving ecosystem, water quality, recreation, and community benefits at Franks Tract

Delta Stewardship Council Active Projects List

Name	Location (County)	Proponent	Status	California Environmental Quality Act (CEQA) Status	Description

Metropolitan Water District Climate Action Plan	Contra Costa, San Joaquin	Metropolitan Water District of Southern California	Monitoring	NOP	A strategy for reducing greenhouse gas emissions associated with future construction, operation, and maintenance activities
Delta Cross Channel Gate Upgrades Project	Sacramento	Reclamation	Monitoring	Not Initiated	Provide for remote and more frequent operation, to manage water quality in the Central Delta and at the SWP and CVP pumping plants
Liberty Island II Conservation Bank	Solano, Yolo	Reclamation District 2093	Early consultation	NOD	Create a tidal marsh conservation bank and sell conservation credits to offset the impacts of future projects
City of Pittsburg General Plan 2024*	Contra Costa*	City of Pittsburg*	Comment Letter*	NOP*	The City will prepare a programmatic Environmental Impact Report (Program EIR) to evaluate the environmental effects associated with the General Plan update.*

Delta Stewardship Council Active Projects List

Status Types

Active projects include both potential covered actions and related plans and projects of interest. The active project “Status” reported above is not sequential but tends to align with certain phases of the CEQA process. The relationship between generalized steps in the CEQA process (top row) and generalized status types (bottom row) is illustrated in **Figure 1**. Each status type is described in more detail, below.

Figure 1. Typical Project Sequence

Coordinating: Occasionally, the Council will coordinate with state and local agencies prior to the initiation of the CEQA process in order to track and/or inform project formulation. Coordination may include informal discussions or attendance at project planning meetings.

Comment letter: Council staff prepare comment letters in response to each phase of the CEQA process leading up to a final document (e.g., Notice of Preparation [NOP], IS/ND, IS/MND, DEIR). The Council may also comment on other interim studies and reports, as needed. The Council comments on potential covered actions as well as on long range plans identified in the Delta Reform Act (Wat. Code section 85212) and projects located outside of the Delta that will have a significant impact on the Delta (Wat. Code section 85210[jj]).

Early consultation: The Delta Reform Act directs the Council to offer early consultation to assist state and local public agencies in preparing certifications of consistency (Wat. Code section 85225.5). The timing and frequency of early consultation is at the discretion of the project proponent.

Anticipating certification: Council staff anticipate a certification of consistency once a notice of determination (NOD) has been issued. Proponents of covered actions must file a certification of consistency prior to project implementation (Wat. Code section 85225). The timeframe between NOD and implementation varies.
