

Active Projects List

The tables below highlight a sample of active projects for Council member review. Active projects include both potential covered actions and related plans and projects. An explanation of Column 4, Status, is provided on the final page.

Changes since January 2026 are denoted with an asterisk (*) and in italics. Two new projects were added, and none were removed.

State Projects

State Project Name	Location (County)	Lead Agency	Status	California Environmental Quality Act (CEQA) Status	Description
Delta Conveyance	Delta-wide	Department of Water Resources (DWR)	Certification filed 10.17.25 Appeals filed 11.17.25	Final Environmental Impact Report (FEIR)	A facility to convey water from the Sacramento River in the north Delta directly to the existing State Water Project (SWP) and Central Valley Project (CVP) pumping plants in the south Delta. Hearing February 26-27, 2026.

State Project Name	Location (County)	Lead Agency	Status	California Environmental Quality Act (CEQA) Status	Description
Little Egbert Multi-Benefit Project	Solano County	DWR	Comment Letter 8.2.23	Notice of Preparation (NOP) for DEIR	Transition of land from agricultural to tidal wetlands, subtidal, and riparian habitat located at the south end of the Yolo Bypass. DEIR anticipated 2025. Certification of Consistency is anticipated in 2026.
Sherman Island Wetland Restoration Project Phase III (Whale's Nose)	Sacramento County	DWR/ Reclamation District (RD) 341	CDFW consultation	Statutory Exemption for Restoration Projects (SERP) Pre-Concurrence Consultation	Restore and enhance up to 1,369 acres of palustrine emergent wetlands.
Petition Requesting an Extension of Time to More Fully Exercise Conditional Water Rights for Operation of the State Water Project.	Contra Costa, Sacramento, San Joaquin, Solano, Yolo Counties	DWR	Monitoring	Notice of Preparation (NOP) for DEIR	Request for a time extension to continue the development of existing water rights permits without altering the existing permitted quantities or rates, purpose of use, season of use, points of diversion, or places of use. Staff is tracking the availability of the DEIR for public comment.

Regional Projects

Regional Project Name	Location (County)	Lead Agency	Status	CEQA Status	Description
Yolo Bypass Cache Slough Partnership	Solano, Yolo	Central Valley Flood Protection Board (CVFPB)	Early consultation; Draft Master Plan comment letter sent 05.15.2025	Not initiated.	Multi-partner initiative for programmatic activities in Yolo Bypass and Cache Slough. The draft master plan is being finalized.
Sacramento Regional Water Bank	Sutter, Placer, and Sacramento Counties	Regional Water Authority (RWA)	Comment letter sent 10.19.23	NOP	Regional water bank to coordinate and expend conjunctive use practices of RWA members. RWA will seek federal recognition of the Project as an approved facility for banking Central Valley Project water under NEPA. EIR anticipated 2026.
Mossdale Tract Area Urban Flood Risk Reduction Project	San Joaquin County	San Joaquin County Area Flood Control Agency	NOP Comment letter sent 05.23.2022	Draft EIR	Construction, operation and maintenance of flood risk reduction and multi-benefit components (to include habitat enhancement and revegetation, dryland levee extension, ecosystem restoration, and recreational features along the levee system) in and adjacent to RD 17, Stockton, Lathrop, Manteca, and unincorporated San Joaquin County.

Local Projects

Local Project Name	Location (County)	Proponent	Status	CEQA Status	Description
Paradise Cut Expansion & South Delta Restoration Project	San Joaquin County	San Joaquin Area Flood Control Agency	Feasibility Study to be completed in 2026	Not initiated	The Project seeks to decrease peak flows during potential flood events and improve and enhance habitat. Draft Feasibility Study anticipated Spring 2026.
Hoover Ranch Conservation Project	Contra Costa County	Wildlife Conservation Board	Monitoring	Land acquisition	Located on Bethel Island in Contra Costa County. Land acquisition for a potential conservation project.
South Delta Gates Project	San Joaquin	DWR	Monitoring	Not initiated	The California Department of Water Resources (DWR) is considering installing permanent operable gates, known as the South Delta Gates (SDG), to replace the current agricultural barriers (Temporary Barriers Project) in the South Delta. Throughout this process, DWR will be engaging interested parties to gather input and feedback regarding the potential project's development.

Local Project Name	Location (County)	Proponent	Status	CEQA Status	Description
<i>*Tide's End Multi-Benefit Restoration Project</i>	Yolo County	DWR	Comment letter sent 08.23.24	<i>Draft Supplemental EIR</i>	Proposing to restore tidal marsh and associated flood plain habitat. Using the Statewide Restoration General Order (SRGO). Certification of consistency anticipated Spring 2026.
Delta Meadows Park Classification and General Plan Project	Sacramento County	California Department of Parks and Recreation (State Parks)	Comment letter sent 02.10.25	NOP	Classifying and developing a comprehensive general plan to address critical resource management and infrastructure needs. DPEIR anticipated Winter 2026.
Goat Island on Rush Ranch	Solano County	San Francisco Bay Restoration Authority	Early Consultation	Suisun Marsh PEIR, 2015 MND	The project aims to improve connectivity between a small, seasonal watershed, uplands, and tidal marsh components by constructing subtidal breaches in the perimeter levee, lowering segments of the perimeter levee to allow occasional overtopping, and removing restrictions to seasonal surface flows and nutrient transport pathways. Certification of Consistency anticipated early 2026.

<i>*Twitchell Island Levee Improvement Project – San Joaquin River Reach</i>	Sacramento County	RD 1601	Certification of consistency filed 12.18.2025.	NOD	Proposing to construct levee improvements along the south side of Twitchell Island to increase the levee's resistance to erosion, provide better overall levee stability and provide enhanced rearing and out-migration habitat for juvenile salmonids. <i>No appeals filed.</i>
<i>*Bouldin Island Multi-Benefit Levee Setback Project</i>	San Joaquin County	RD 756	Comment letter sent 02.17.2026.	IS/MND	Proposing to implement a levee setback along the Mokelumne River on Bouldin Island to create a waterside planting bench for shaded riverine aquatic habitat, rehabilitate the levee, and replace a pump station.
<i>*Hotchkiss Tract Levee Rehabilitation Project</i>	Contra Costa County	RD 799	Staff drafting comment letter.	MND	Proposing to rehabilitate the Dutch Slough levee to meet Bulletin 192-82 agricultural standard, incorporate habitat enhancements, and vegetation management.

Other Projects

Project Name	Location (County)	Proponent	Status	CEQA Status	Description
Delta Conveyance	Delta-wide	U.S. Army Corps of Engineers (USACE)	Comment Letter	Final Environmental Impact Study (EIS)	A facility to convey water from the Sacramento River in the north Delta directly to the existing SWP and CVP pumping plants in the south Delta. The scope is limited to construction activities, structures, and modifications to federal levees and navigation projects.
Delta Cross Channel Gate Improvements Project	Sacramento	U.S. Bureau of Reclamation (Reclamation)	Comment letter sent 7.10.25	Draft Environmental Assessment (EA)	Provide for remote and more frequent operation, to manage water quality in the Central Delta and at the SWP and CVP pumping plants. Construction anticipated 2026.

Project Name	Location (County)	Proponent	Status	CEQA Status	Description
Bay Delta Water Quality Control Plan (Phase I)	San Francisco Bay, Sacramento to San Joaquin Delta	State Water Resources Control Board	Comment Letter sent 1.19.24.	Final SED	The proposed project was the adoption of regulations pursuant to the rulemaking procedures of the Administrative Procedure Act (Gov. Code, § 11340 et seq.) to allocate responsibility to water rights holders and claimants for implementing the Bay-Delta Plan Lower San Joaquin River flow and southern Delta salinity components of the 2018 Bay-Delta Plan. Provisions of this are being integrated into the Phase II Monitoring and Evaluation Program (BDMEP). Work is underway to develop an implementation plan, which involves aspects of voluntary agreements being considered under Phase II.

Project Name	Location (County)	Proponent	Status	CEQA Status	Description
<i>*Bay Delta Water Quality Control Plan (Phase II)</i>	San Francisco Bay, Sacramento to the San Joaquin Delta	State Water Resources Control Board	<i>Comment letter on updated amendment sent 02.02.2026.</i>	WQCP Update process (functional equivalent for CEQA)	The proposed project is to adopt an Update and Implementation plan for the Water Quality Control Plan for San Francisco Bay/Sacramento-San Joaquin Delta Watershed. This includes the 'Voluntary Agreements' (VAs) as well as revised requirements for non-VA parties.
Plan Bay Area 2050+	Bay Area (9 counties)	MTC/ABAG (Metro Transportation Commission/Association of Bay Area Governments)	Comment letter sent 2.14.25	Draft EIR	Limited update to the Plan Bay Area 2050+, verifying growth and economic assumptions due to COVID. Council presentation in December 2025.

Project Name	Location (County)	Proponent	Status	CEQA Status	Description
*SJCOG 2026 RTP/SCS	San Joaquin	San Joaquin Council of Governments	Comment letter sent 5.19.25	NOP	Update to the region's goals and policies for meeting current and future mobility needs and identify programs, actions, and a revised plan of projects intended to address these needs consistent with adopted goals and policies. Presenting at the Council meeting in <i>April</i> 2026.
Suisun Expansion Project (California Forever)	Suisun City, Solano County	City of Suisun	Monitoring	NOP	The project would expand the boundaries of Suisun City through annexation of 22,873 acres of unincorporated Solano County. The project would establish an Area Plan covering approximately 7,136 acres of the site.

Status Types

Active projects include both potential covered actions and related plans and projects of interest. The active project “Status” reported above is not sequential but tends to align with certain phases of the CEQA process. The relationship between generalized steps in the CEQA process (top row) and generalized status types (bottom row) is illustrated in **Figure 1**. Each status type is described in more detail below.

Figure 1. Typical Project Sequence

Coordinating: Occasionally, the Council will coordinate with state and local agencies prior to the initiation of the CEQA process in order to track and/or inform project formulation. Coordination may include informal discussions or attendance at project planning meetings.

Comment letter: Council staff prepare comment letters in response to each phase of the CEQA process leading up to a final document (e.g., Notice of Preparation [NOP], Initial Statement [IS], Negative Declaration [ND], Mitigated Negative Declaration [MND], Draft Environmental Impact Report [DEIR]). The Council may also comment on other interim studies and reports, as needed. The Council comments on potential covered actions as well as on long-range plans identified in the Delta Reform Act (Wat. Code section 85212) and projects located outside of the Delta that will have a significant impact on the Delta (Wat. Code section 85210[j]).

Early consultation: The Delta Reform Act directs the Council to offer early consultation to assist state and local public agencies in preparing certifications of consistency (Wat. Code section 85225.5). The timing and frequency of early consultation are at the discretion of the project proponent.

Anticipating certification: Council staff anticipate a certification of consistency once a notice of determination (NOD) has been issued. Proponents of covered actions must file a certification of consistency prior to project implementation (Wat. Code section 85225). The timeframe between NOD and implementation varies.
