Curtailement of Delta ISB Activities

As discussed at recent Delta ISB meetings, the current appointment structure of Delta ISB members necessitates greatly curtailing the agenda and activities of the Delta ISB to a much lower level. Substantial delays in many of the Delta ISB's anticipated and legislatively mandated reviews, products, and activities are expected. The Delta ISB is committed to supporting science for the Delta's problems and problem-solving, and looks forward to returning to its high level of productivity as soon as the State fully resolves this issue.

Purpose

The Delta ISB will meet regarding its current reviews and efforts. At the meeting, the Delta Stewardship Council staff will present preliminary findings from "Delta Adapts: Creating a Climate Resilient Future," which is the first-ever climate change vulnerability assessment and adaptation strategy conducted for the Delta and Suisun Marsh. Afterwards, the Delta ISB will discuss the current status of the Science Needs Assessment and the water supply reliability review. Based on the discussion, the Delta ISB may take potential action on next steps for the Science Needs Assessment.

This section describes the highlights. For more information about the meeting, refer to the agenda below.
