Purpose

The Delta ISB, with support from the Delta Science Program, is hosting a seminar series to explore concepts from decision-making under deep uncertainty and present tools that can help managers and stakeholders evaluate and plan for a wide range of plausible futures in the Sacramento-San Joaquin Delta. At this meeting, the Delta ISB will host a seminar on Dynamic Adaptive Planning and how it might be applied to management issues in the Delta. Speakers include Marjolijn Haasnoot, associate professor at Utrecht University and climate change adaptation researcher at Deltares, and ~~Andrew Warren of Deltares, Keren Bolter, climate scientist at Deltares, and Kathryn Roscoe, senior researcher at Deltares~~. The seminar will explore practical examples of using Dynamic Adaptive Planning to show when it is most effective and how it can be used to reframe uncertainty as opportunity. [See flyer for more information.](#)

This Purpose section describes the highlights. For more information about the meeting, refer to the agenda below.

Agenda

The agenda items listed below may be considered in a different order pursuant to the determination of the Delta ISB chair. The times listed on the agenda are approximate only.
