

Adaptive Management Forum

October 14-15

#AMForum2025

In-person & Zoom attendance

CNRA Building (715 P Street,
Sacramento, CA, 95814)

Event Details:

The Delta Science Program hosts the Adaptive Management Forum every two years to increase adaptive management capacity in the Sacramento-San Joaquin Delta for ecosystem restoration, water management, and beyond. The next forum will feature presentations, panel discussions, and activities connecting participants across sectors and disciplines. Presenters and panelists will share lessons and insights from all stages of the adaptive management cycle to showcase successes, gaps, and future needs. We hope you will join us for these important conversations.

The forum will be a hybrid event, with the in-person component hosted at the California Natural Resources Agency Headquarters in Sacramento and the online component on Zoom. Watch for registration and an agenda, which will be released soon.
